

THIRD ATTEMPT ON MUSSOLINI'S LIFE IS A FAILURE

WORLD SERIES
STARTS OCT. 2
IN A. L. CITYArrangements for Big
Classic of Baseball
Made Today

Pittsburgh, Pa., Sept. 11—(AP)—The world series this year will open on Oct. 2 in the city of the American League pennant winning club, it was decided here today by Baseball Commissioner K. M. Landis and representatives of the leading teams in the American and National Leagues. The second game will be played in the American League city also.

The third, fourth and fifth games will be played in the city of the pennant-winning National League club.

In the event the sixth and seventh games are necessary, they will be played in the American League city. All games of the series will be started at 1:30 p. m. standard time in the city of play.

Provide Day of Rest.

Should the series be played between New York or Philadelphia in the American League and St. Louis, Cincinnati or Chicago in the National League, there would be a day of rest for the contending teams between the second and third games and the fifth and sixth games to permit the clubs to travel. No day of rest would be included in a series between teams located within easy travel distance.

Should a scheduled game be postponed on account of rain or other adverse weather, before the regulation four and one half innings had been played, it will be played off on the grounds where it was originally scheduled on the following day.

In the event of a legal game, it will be played off after the seventh game of the series on the grounds where the tie battle was staged.

Prices Are Determined.

The club officials taking part in the conference with Commissioner Landis decided on the following world's series price schedule: Box seats \$5.00; reserved seats \$3.50; general admission tickets \$3.30; bleachers \$1.10, all prices including the tax.

It was announced by the Commissioner that umpires for the series would be selected later by the presidents of the National and American Leagues.

Hot Dog Stands are
Objective of Drive

Washington, Sept. 11—(AP)—The haunts of the seductive hot dog have been the highways of the nation to such an extent that the American Automobile Association has launched a nationwide campaign to restrict operations of vendors along the roadsides.

In an effort to restore the beauty along the highways, officials in every state were requested by the association to formulate plans whereby the thousands of unwholesome, unpainted, and unsanitary hot dog stands and lunch counters would be brought under decent regulation.

Spencer Sells Walnut
Knob to Lee Sheriff

David H. Spencer, who for 14 years has lived east of the city on Walnut Knob, has sold his beautiful home and orchards to Sheriff Elliott C. Riley. Mr. Spencer purchased the site several years ago, clearing much of the land and developing it into one of the beauty spots in this locality. He has been a very successful gardener and fruit grower and is now retiring from active life. He expects to move with his family to Dixon to make his future home.

IOWA EDITOR TO SWIM ROCK
RIVER HERE TOMORROW WITH
HANDS TIED, HE DECLARES

It is considered quite a feat to swim the Mississippi river but it is more child's play for an editor or printer when he takes to the water in earnest. At least so thinks Andy Gault of Clinton, Iowa, of the third generation of printshop Gaults, and who has conducted country weeklies in several states. He wanted something more difficult so he dressed in a complete overseas army outfit including overcoat and pack, had his feet tied, knies tied, tied his hands behind his back and had them tied, then jumped in and towed a boat containing several passengers entirely across. He says he is going to demonstrate how he does it here in front of the artificial ice plant, tomorrow afternoon at 4:30 o'clock.

WILL IMPROVE
FAIR GROUNDS
OGLE CO. ASSN.Fine Profit Realized
from Fair at Ore-
gon this Year

Oregon—With this year's attendance records shattering all previous marks by several thousand—there being approximately 40,000 entering the gates during the five-day meeting—officials of the Ogle County Fair association are considering new improvements and expansion for 1927.

President Z. A. Landers of the association was responsible for the statement that Monday's record crowd of 16,000 would probably pay expenses of the fair, thus allowing Wednesday, Thursday and Friday's receipts to go into the profit column.

Extension of the grand stand to allow for 5,000 seating capacity and rearrangement of exhibit halls to allow more space for the crowds are projects which will come before the fair body at its meeting next week to check up this year's business.

Never before have Ogle and Winnebago county farmers and townspeople alike so thronged the local fairgrounds. Business houses have benefitted greatly from the many visitors this week and everyone here is enthusiastic over making the 1927 Oregon fair the biggest county fair in the north half of the state.

SICKNESS STOPS
CAMPAIGNING OF
SEVERAL LEADERSSmith, Brennan, Brook-
hart, LaFollette Un-
able to Travel

Chicago, Sept. 11—(AP)—Illness has placed a restraining hand on the campaigns of three midwestern senatorial candidates and has curtailed the activities of several other leaders in political life.

George E. Brennan, democratic nominee for United States senator in Illinois, must remain in a hospital another week before it can be determined whether he will be able to resume his speaking itinerary. Mr. Brennan, the second of Illinois' senatorial candidates to be stricken, injured his left knee joint at Nokomis, Ill., last Tuesday.

His republican opponent, Col. Frank L. Smith, is recuperating from an operation for appendicitis performed about the time he won the nomination from Senator William B. McKinley who is critically ill with sciatic rheumatism at Martinsville, Ind. Brookhart is ill.

Col. Smith W. Brookhart, republican senatorial nominee in Iowa and Senator R. M. LaFollette of Wisconsin are undergoing physical examinations, and Senator T. D. Schall of Minnesota has been ordered to take a complete rest in a Minneapolis hospital.

Col. Brookhart who became ill at Clermont, Iowa, yesterday, arrived at his home in Washington, Iowa, last evening and was immediately ordered to bed by the family physician. Gail trouble was diagnosed as his ailment. He hopes to be able to resume his campaign in a few days.

Senator LaFollette, who took a prominent part in the recent Wisconsin primary, has entered the Mayo Clinic at Rochester, Minn., for a general examination.

No Slot Machines in
City, Officials Say

The caption of an article in last evening's Telegraph relative to the theft of slot machines, stated that the machines had been stolen from places of business in the city. This was in error as no slot machines are permitted to operate in the city limits. The machines were stolen from places outside the city limits, over which the local police have no jurisdiction.

PRESIDENT PLANS
TO LEAVE THEIR
CAMP NEXT WEEKDiscussed Mexico Sit-
uation With Shef-
field This Morn

Paul Smith's, N. Y., Sept. 11—(AP)—James R. Sheffield, American ambassador to Mexico, conferred with President Coolidge at the executive offices of the summer White House today but what phase of Mexican affairs occupied their attention was not announced.

It has previously been indicated, however, that various issues concerning the oil and land laws of Mexico were the principal ones being given attention by the Washington government at this time with reference to Mexico.

Mr. Sheffield was a guest at White Pine Camp early this week, but then left to spend some time at Saranac Inn near here. He motored over from there this morning.

Considers Farm Relief

President Coolidge has no plan for any particular form of farm relief legislation although he is giving consideration to the many proposals that have been made to him since the last session of congress.

He has given the question considerable study, it was said in his behalf at the executive offices, but his considerations have not progressed so far as to enable him to draft a measure to give additional assistance to the farmer or to favor any particular kind of draft.

Several of Mr. Coolidge's vacation callers have discussed the agricultural situation with him, the more recent having been W. I. Drummond of Kansas City, chairman of the American Farm Congress who has framed a measure providing for government aid in disposing of basic surplus crops through farmers cooperative organizations. There are no indications, however, that the President has formed a conclusive opinion regarding Mr. Drummond's proposal.

No House Guests Today

The departure of Attorney General Sargent to his home in Vermont yesterday after a visit at White Pine Camp, left the President and Mrs. Coolidge without house guests. It was expected they would spend their last Sunday in the Adirondacks quietly in the company of their son John.

They plan to leave for Washington sometime between late Friday afternoon and Saturday evening.

Joseph Morgan attended the fair at Oregon Friday afternoon.

TWO MEN NEAR DEATH ON
RAILROAD CROSSING AT
OREGON FRIDAY MORNINGCoupe Hit by Train:
Wisconsin Men on
Vacation Trip

Two men miraculously escaped death in Oregon Friday when the Ford coupe in which they were riding was struck and smashed by a fast C. B. & Q. freight train one-half mile north of that city.

They are: Dr. Clyde L. Moore, and Howard W. Ware, both of Albany, Wis.

Both men suffered greatly from shock and were severely bruised and cut but escaped major injury, so far as is known. Following emergency treatment at the office of Dr. H. H. Sheets, they boarded a bus for Rockford, on the first lap of their trip back to Albany. The men were bound on a vacation trip to the southern part of the state.

Narrowly Missed Death.

The pilot of the freight engine tossed the coupe a distance of 25 feet, hurling both men from the machine. One of the men was found unconscious lying with his head less than six inches from the rail over which freight cars were pounding.

Had he regained consciousness and raised his head he would certainly have been killed, rescuers said.

KIWANIS PLAN
BIG PRODUCTION
"ROLLING ALONG"Preliminary Arrangements
Made for Annual Show
Nov. 15 and 16

A committee representing the Kiwanis Club of Dixon met last night with J. A. Darnaby of Chicago, in the rooms of the Chamber of Commerce and completed final plans for the second production to be made by J. A. Darnaby and Miss Helen Runyan under Kiwanis auspices. The new show in entitled "Rolling Along."

It was staged last season by Mr. Darnaby in Chicago and is said to have scored heavily.

The first act is in two scenes. The first half of the act is a travesty on the World Court. The costuming of this scene is said to be very elaborate, all costumes worn by the men imported and absolutely correct in every detail. Mr. Darnaby has seen fit for effect to have all the representatives of the foreign countries in military dress. America is represented by the character of Uncle Sam.

Everything is Comedy.

All lines are, of course, written in a comedy vein and the musical numbers are done by a group of gorgeously gowned ladies and men seated on a balcony erected in two sections twenty feet in height. At the conclusion of this scene, which is said to be a riot of fun and wherein will appear some twenty member of the Kiwanis Club and a dozen prominent singers of the city, the travesty will give way to a full minstrel first part, the change being made in a most novel and original manner. The minstrel program will conclude the first act.

The second act is a burlesque based on the abdication of a certain very famous Prince. The setting is very beautiful and the costumes of officers, soldiers and civilians are historically correct. This act is said to contain many beautiful song numbers, a large chorus of young ladies and young men, a ballet of twenty and several specialties. "Rolling Along" promises to be the biggest laughing hit of the theatrical season.

Production in November.

The dates set for the show originally for October have been changed to November 15 and 16.

Rehearsals will begin about Nov. 3rd.

The committee determined upon a ticket campaign that will reach to many points in the county and all surrounding towns. Both President Martin and Prof. Strong stated last night that it was the undoubted opinion of the entire town of Dixon that nothing better than "The Little Lady" and "Peggy" has ever been staged in this city. The costuming and staging of these production are sufficient proof of the manner in which Mr. Darnaby will present "Rolling Along."

Mr. Darnaby and Miss Runyan are just back from Winnipeg, Canada, where for twelve weeks they have directed the amusements features and managed the Exposition branch of the Winnipeg Summer Fair and Trade Exposition, their second year in Winnipeg.

Author of Articles
on Illinois Coming

Leater B. Colby, director of publicity of the Illinois Chamber of Commerce and writer of the interesting series of articles on "Rediscovering Illinois," which have appeared in The Telegraph, will be in Dixon next week. The purpose of his visit will be to gather data and information for an article describing Dixon's importance in the life of the state, its manufactures and possibilities.

Mr. Colby will be the guest at a luncheon to be served at the Christian church Tuesday noon, the hour of the regular weekly Kiwanis club and professional men have been invited to attend this meeting which will be addressed by the writer.

Household Goods in
Ditch East of Town

A truck loaded with valuable household goods, was wrecked on the Lincoln Highway east of Dixon about 10 o'clock last night and the cargo deposited in a ditch along the side of the road. The bed of the big truck slid off the chassis when one of the wheels broke and collapsed as the truck was moving along at a speed of about 20 miles an hour. Much of the cargo was badly damaged and was loaded onto another truck during the night and taken to its destination.

Rural Carriers Will
Gather Information

Postmaster John E. Moyer has just received from the Fourth Assistant Postmaster General a limited number of questionnaires which Rural Carriers are to place in the hands of their patrons, with the request that they be filled out and returned at once.

It is hoped that those farmers who receive the cards will cooperate in this very important matter, for the United States Government in reply to their call for assistance are trying to devise ways and means to help them, and it is their duty to give every possible assistance in this connection.

Mrs. Martha Oberline
Died Friday Evening

Mrs. Martha J. Oberline passed away at 11 o'clock last night at the home of her daughter, Mrs. Ed Cummins, east of Dixon. Complications, with which she had been a patient sufferer for some time, caused her death at the age of 88 years, nine months and 15 days. The remains will be taken to Decatur where the funeral will be held Monday with burial in the Bowling Green cemetery at that place.

Next Templar Conclave
Awarded to Rock Island

Peoria, Ill., Sept. 11—(AP)—Rock Island was awarded the 1927 conclave of Illinois Knights Templar at the closing session of the grand commandery of the state here Friday. The selection was made after Rockford which had been expected to be the winner failed to present an invitation, leaving Rock Island without opposition. The date for the conclave was left to the officers of the grand lodge to be set later.

DIXON DISTRICT
WINS HONORS AT
S. S. CONVENTIONAttained Best Grade
of All Schools in
Co. for Year

Dixon district was awarded county honors at the Lee County Sunday School Convention which met yesterday in the Franklin Grove M. E. church, having during the past year attained the highest grade according to International Standard, 82%. Nearest to this among the six districts in the county, was the one in which the convention met, which reached 73%. These grades take in all kinds of activities by the District Association, as well as those of the Sunday schools in that district. Dixon district covers Dixon, South Dixon, Nelson and Palmyra townships. A year ago the county pennant went to Lee Brookfield District (Lee Center, Sublette and Brooklyn townships) and has since been displayed in the Sunday schools there.

Officers Are Elected.

Officers elected for the coming year by the county association are: President, Rev. Walter W. Marshall, Dixon; Vice President, Rev. Frank Brandteller and Mrs. Mary L. Kay, Dixon; Secretaries, Mrs. Ethel Kay Wood and George Weyant, Dixon; Treasurer, Wm. Sandrock, Ashton. Superintendents—Business, S. L. Shaw, Lee Center; Children, Mrs. Jennie Halderman, Franklin Grove; Young People's, Rev. L. V. Siler, Franklin Grove; Adult, to be supplied; Administration, Earl Buck, Franklin Grove; Educational, Rev. J. A. Iwig, Ashton.

Every district in the county was represented at the convention.

Music was an interesting feature. During the day it was in charge of Rev. L. V. Siler, the local pastor, who was pianist for some of the songs. Rev. Siler of Franklin Grove and Rev. Brandteller of Dixon favored with enjoyable duets, singing gospel songs. In the evening Mr. and Mrs. Frank Nangle of Paw Paw sang three duets, Mrs. Nangle accompanying. The first was "Blessed Redeemer" to the old Dixie melody arranged by Beulah. The next found its title in the beautiful refrain, "The tolls of the road will be nothing when I get to the end of the way," and their last was "The Golden Hallelu." Mr. and Mrs. Nangle have done evangelistic singing for eleven years, in this and other states, and are always favorites.

Many Fine Addresses.

The inspirational address based on Bible story in the evening was by Rev. J. F. Van Evers of Ashton, who spoke on "Dead Sticks in God's Service," an unusual and helpful exposition of the story about the prophet Elisha, his servant Gahazi, and the Shunammite woman whose son, the prophet raiser from the dead after his sick in the hands of the servant had failed. True service costs vitality. Dead sticks are without power. God is with His representatives, now as then.

Rev. Brandteller led the devotional service in the morning, Rev. Marshall in the afternoon, and Mr. James E. Wood, Missionary of the American S. S. Union, closed the convention with prayer.

The State Worker and leading speaker at all sessions was George N. Burnie, Secretary of the Illinois Council of Religious Education. His topics were "Fundamentals of Success," "Holding Our Boys and Girls," "Making the Grade." Each was very interesting and helpful and worthy of reporting in detail, full of stories which brought home the truth whether on methods or the personal life of the workers.

Presbyterians to
Return to Church

While the repairing and redecoration of the Presbyterian church which has been under way this summer is not completed, it is done enough so that it will be possible to hold morning worship tomorrow in the main auditorium of the church. This service at 10:45 will be preceded by Sunday school at 9:45.

The main room of the church has been thoroughly cleaned, the wall and ceiling washed and the walls and wood work painted. The stencils on the walls and ceiling have been cleaned and retouched and so well has the work been done that it is impossible to see where in some instances it was necessary to paint in a new stencil for as much as a square foot.

There will be every effort made to complete the repairs this coming week so that all of the church may be used then.

The pastor will preach, Mr. Kietzman will sing.

PLAN FINANCES
FOR FOOTBALL
TEAM IN DIXONAn Independent Team
Will Take Field in
Dixon this Fall

Dixon will have an independent football team in the field again this season, and while some of the candidates have been going through light practice, the chief subject, as in former years, has been the question of financing the team. Those who have been most active in the success of the team have secured a picture to be shown at the Dixon theater two days, Sept. 22 and 23 in which Douglas McLean, former Dixon young man, will appear in his screen success, "Hold That Line." The picture is one whose actions are based on the football field. Tickets will be in the hands of members of the team the first of the week.

The proceeds from the picture will be used to defray some expenses which were incurred last year and the remainder will go into the club treasury. A booster day is being planned later in the month to provide finances for the outfitting of the team this season. Several requests have already been received from managers of out of town teams for games this fall.

OGLE CO. FARMS
VALUATION CUT
BY REVIEW BOARDTwenty Per Cent Reduction
Made in Report
Just Submitted

Oregon, Sept. 11—Ogle county land owners will profit by a 20 per cent reduction in the assessed valuation of all farm tracts of more than three acres as a result of the report of the board of review submitted to Sidney J. Hess, county clerk.

The board also "uncovered" taxable property with an assessed valuation of \$655,000.

"I am satisfied that had we been given two weeks more time, we could have 'uncovered' a million," Ross Hedrick, Lincoln township supervisor and chairman of the board said.

"Being a farmer and land owner, I was particularly interested in reducing taxes on farm lands. This board has acted most fairly and accomplished results, in my opinion, without a precedent in the history of the county."

\$20,552,000 in Realty

Mr. Hedrick was assisted by Supervisor Elmer S. Blair, Adeline, and Attorney John B. Hayes, Rochelle. Gail Yetter, Stillman Valley, acted as clerk.

According to figures tabulated by Mr. Yetter the real estate valuation in Ogle will total \$20,552,000 and personal property \$4,088,000. These assessments do not include railroads or other public utilities.

Illinois and Nebraska
Contest for Honors

Omaha, Neb., Sept. 11—(AP)—Illinois and Nebraska champions are favorites in the "showdown" of the world's hog calling championship tonight at the Omaha Radio Show.

Fred Patsel, Nebraska champion, is high scorer of the preliminary contests with 94-1-3 points and Guy Bender, Illinois champion, runner up with 87.

Other qualifiers eligible for the finals include: Everett Dadds, Omaha champion 82½; L. Colton, Missouri champion, 80; J. M. Whitehead, Galeburg, Illinois 75; M. G. Curschner, Omaha, 75.

Hugh Henry, entry of Kansas City Journal Post, failed to stack up last night against callers from the Nebraska and Illinois plains. He registered 69 percent with the judges.

No Loafing Near Bank.

Monroe, Wis.—There will be no more loitering in front of Monroe's three banks on Saturday night. So many "innocent bystanders" have turned out to be yeggs that authorities have decided to make it a rule to forbid loitering in front of a bank. Any group that forms in front of one for a social chat will be promptly broken up, Chief of Police Jerome H. Schwalger announced.

There will be every effort made to complete the repairs this coming week so that all of the church may be used then.

BOMB HURLED
AT HIS AUTO
THIS MORNING"Duce" Not Injured for
Bomb Failed to Ex-
plode as Wished

Rome, Sept. 11—(AP)—Benito Mussolini, Italy's picturesque premier and Fascist leader today escaped the third attempt made upon his life within a year.

Ermene Giovanni, a young Italian stone cutter, threw a bomb against his automobile shortly after 10 o'clock this morning as the premier was being driven from his residence to the Chigi Palace. The missile struck a side window of the limousine but did not explode until after it had fallen to the ground. Mussolini escaped unharm.

Four passersby, were wounded by fragments of glass from the car.

Assailant Protected.

Giovanni who arrived in Rome from abroad only this morning, entering the country without a passport was immediately seized by the agents escorting the premier's car. A threatening crowd gathered and several policemen were injured in protecting the assailant from mob vengeance.

Mussolini maintained his customary calm and continued to the Chigi Palace. At his order the Fascist Directorate issued a manifesto to all black shirts enjoining calm and directing that there be no attempts at reprisal.

The National Directorate of the Fascist party, announcing that "God has once again saved Mussolini for Italy," issued an appeal that there be no reprisals.

The attack occurred a little after 10 o'clock this morning while Mussolini's automobile was proceeding toward the Chigi Palace. A young man named Giovanni, a stone cutter, threw a bomb against the car. He was immediately arrested by the police agents escorting the premier's automobile. He said he had arrived in Rome today from abroad, and that he came into Italy through the Alps, being unable to travel by the usual routes as he was without passports or identifying documents.

Assassin an Italian

The assassin is a native Italian, he told the police and was born in 1908 at Castelnuovo di Garsana.

The authorities believe his journey to Italy was financed and directed by groups of self-styled anti-Fascists, notably in Lyons and Paris. They point out that the Paris anti-Fascist paper Corriere degli Italiani several days ago launched an anti-national campaign with the slogan "Italiani! Boycott Italian goods."

Government measures to keep news of the attack secret to avoid disorders were taken immediately and were so successful that virtually no one on the streets had the slightest idea late this morning that a third attempt had been made against the premier within the space of a year.

In journalistic and political circles where the news was known, however, there were knots of excited talkers.

Previous Attempts

The Italian premier is no stranger to attempts on his life.

The last previous attack was made April 7, just before his departure to Tripoli when Miss Violet Gibson, an English woman, fired a shot which caused a slight injury to the tip of his nose. The attack was made as he was leaving a session of the

AMERICAN MEN ARE DRESSED
BETTER THAN OTHERS: THEY
ORIGINATE OWN STYLE, TOO

Minneapolis, Minn., Sept. 11—(AP)—American men are the best dressed men in the world and not only that, but they originate their own styles, thus going the women one better.

This news comes from C. F. Wetzel, of New York, president of the National Association of Merchant Tailors of America, who is here today for a district conference.

After explaining the men in this country create their own styles instead of importing them from abroad, Mr. Wetzel declared "American men are getting the habit of being well dressed."

The conference, which began Friday, is being attended by tailors from Illinois, Wisconsin, Minnesota, North and South Dakota, Montana, Iowa and Nebraska.

Butter Market

Chicago, Sept. 11.—(AP)—The butter

markets during the week ending Sept.

11, regained some of the strength

which was seen at the outset of the

previous week but was lost at the

close. Barring some easiness and

price declines at eastern points the

day following Labor Day, the market

position held steady throughout. At

times some firmness crept in, particu-

larly at Chicago where prices ad-

vanced almost 1c by easy stages but

as a rule prices experienced only

minor changes and trade held to a

steady moderately active course.

From a statistical aspect the mar-

ket position is considered good. The

final figures giving storage holdings

on Sept. 1, are not available. It is

known however, from reports of hold-

ings in 26 of the storage centers

where about three-fourths of the to-

tal stocks are held, that the large

surplus over 1925 which was reported

on Aug. 1 has been very materially

reduced.

The trade estimates this surplus in

the neighborhood of 12,000,000 pounds

whereas, the surplus Aug. 1 was more

than 22,000,000 pounds.

Weather conditions in the dairy sec-

tions remain favorable for fall pro-

duction.

Weekly Grain Report

Chicago, Sept. 11.—(AP)—The U. S.

government crop report was in close

agreement with private estimates but

the Canadian report, showing a de-

crease of more than seven million

bushels as compared with 1925 instead

of the 20,000,000 increase expected a

week ago, caused sharp comment in

local grain circles.

The U. S. report on corn was about

the same as the average of private es-

timates but the total of 1,264,000,000

bushels for oats was 33,000,000 under

the average of private returns.

Wheat this morning compared with

a week ago was 1 1/2c to 2 1/2c net higher;

corn 1 1/2c to 4 1/2c up; oats showed a

net gain of 1/2c to 3/4c and provisions

ranged from 10c decline to 42c ad-

vance.

Chicago observers are taking the de-

creased rye crop both here and abroad

into consideration when discussing

the world wheat situation. On the

whole, it is generally considered, that

the grand total of wheat in the north-

ern hemisphere exclusive of Russia, is

about the same as last year, the con-

clusion being based on estimates that

the United States could spare 150,000,-

000 bushels for export and Canada

Nelson Youth Cut When

Thrown Through Glass

Warren Buckaloo, son of Mr. and

Mrs. C. C. Buckaloo of Nelson town-

ship, was badly cut about the head

about 12:30 yesterday noon, when he

was thrown through the windshield

of a Ford touring car, in which he

was riding with Robert Bollman. The

car was traveling west on Third

street near the corner of Galena ave-

nue, when it crashed into the rear of

a Cadillac car which was parked at

the curb. The force of the impact

threw the Buckaloo boy through the

windshield and damaged the car con-

siderably. The injured young man

was removed to the office of a physi-

cian where his injuries were dressed

and then taken to his home. The

damaged car was taken to a garage

for repairs.

SONG—
Oh, the gray winter cold, the gray winter cold,
When the day is so frail and the dark is so bold,
When thoughts are like sheep, and death shepherds the fold,
Oh, what is so gray as the gray winter cold?

Oh, the spring of the year, the spring of the year,
When ways are so mucky and sky is so clear,
When there's no where to find one as dear as you, dear,
Oh, what is so sweet as the spring of the year?

Oh, the fall of the year, the fall of the year,
When the ring of the scythe is a song in your ear,
When the smell of wood fires is sharper than fear,
Oh, what can so pierce as the fall of the year?

Oh, the summer between, the summer between,
When the leaves are as loud as the harley is green,
And the little clouds bloom like the flowering bean,
Oh, what is so kind as the summer between?

Mildred Mortenson Lee Carpenter Wed

Mildred Mortenson, daughter of Mr. and Mrs. J. C. Mortenson of Thornton, Iowa, and Lee Carpenter, son of Mr. and Mrs. George L. Carpenter of Amboy, were united in marriage Saturday, Sept. 4, at Thornton, Iowa.

The wedding was performed with only members of the bride's immediate family present. The newly married couple did not return to Amboy following the ceremony but remained in Thornton, Iowa, for a visit.

Mr. Carpenter gave up his position with the Standard Oil Co. in Amboy before leaving to be married, but did not announce what his future plans would be or where he and his new bride would make their home.

The best wishes of the community will go with the newlyweds where ever they may live.

RELIEF CORPS TO MEET MONDAY EVENING—
Dixon Relief Corps No. 218 Auxiliary to the Grand Army of the Republic, will meet on Monday evening, Sept. 13th, at 8 o'clock in Grand Army Hall.

ATTENDED THEATRE THURSDAY NIGHT—
Mrs. Marchino and sister, Miss Ethel Conway, of the Nachusa Tavern, also the Misses Mae and Bessie Holland, motored to Sterling Thursday night to attend the picture, "The Sainted Devil," starring Rudolph Valentino. This picture was shown in Dixon some time ago.

A WOMAN'S DAY ABROAD

BY ALLENE SUMNER

Brussels, Belgium—If you aspire for a wedding "as is a wedding," you will trek with your orange blossoms to the fair city of Brussels with its world-famed marriage hall.

Likewise, if you grow awaried of this thing called matrimony, you will hie you with blood in your eye and a smart lawyer to the same fair city.

But you will gaze at your wrist-watch and mark the time well.

If you wish to hear ye merrie, merrie wedding bells, you will go to Brussels at nine in the morning, and if you hard to lend your ears to those words which announce to the world and his wife that hereafter you eat your liver and bacon alone, you will go to Brussels at four in the afternoon.

Seriously, the marriage and divorce hall of Brussels is one of the most interesting things my duenna and self have seen in all Europe.

It burst upon us unexpectedly. We had fared us forth to the historic medieval Hotel de Ville, the finest specimen of lacy Gothic architecture in all Europe.

And we had just passed 'neath an old portico, dripping with ivy, when we saw a mist of wedding veil floating through a door ahead.

We tried to follow the veil, but some of those blue coats and brass buttons which abound in this continent stopped us.

"The King's daughter must be having a civil marriage," thought we, follied, going in another door to see some old Flemish tapestries instead.

We looked out of the window. More brides. Dozens of them. We looked in a window and saw seven varieties of official high hats shaking hands with 57 more veils.

The plot thickened. But light dawned. We came to an open door leading into a hall of cathedral vastness.

A sign proclaimed it "The Chamber of Marriages."

To our surprise no gold buttons shooed us back and we were ushered in to stand in a reception line of "the public."

And there the brides were—dozens and hundreds of them—brides in misty tulle and satin—widow brides in the black of mourning not yet put off. Old women brides with grizzled heads and gnarled hands.

And bridegrooms, too; boy grooms and widower grooms and a horde of "sugar daddy" grooms. One out of every six brides, it seemed, was on the arm of one who seemed already to have lived his three score year and ten.

Brass buttons explained Brussels' marriage hall. Every marriage in the city must have its civic ceremony here on Saturday morning. Five hundred of them some Saturdays. They stood in line for hours sometimes.

And at four o'clock the divorce! The divorce line nearly as long as the marriage line.

So waited this long queue of those who would, wed in the outer hall, fling in like flies to sit on high humpy cushions before the august uniformed burgo-master and say their vows.

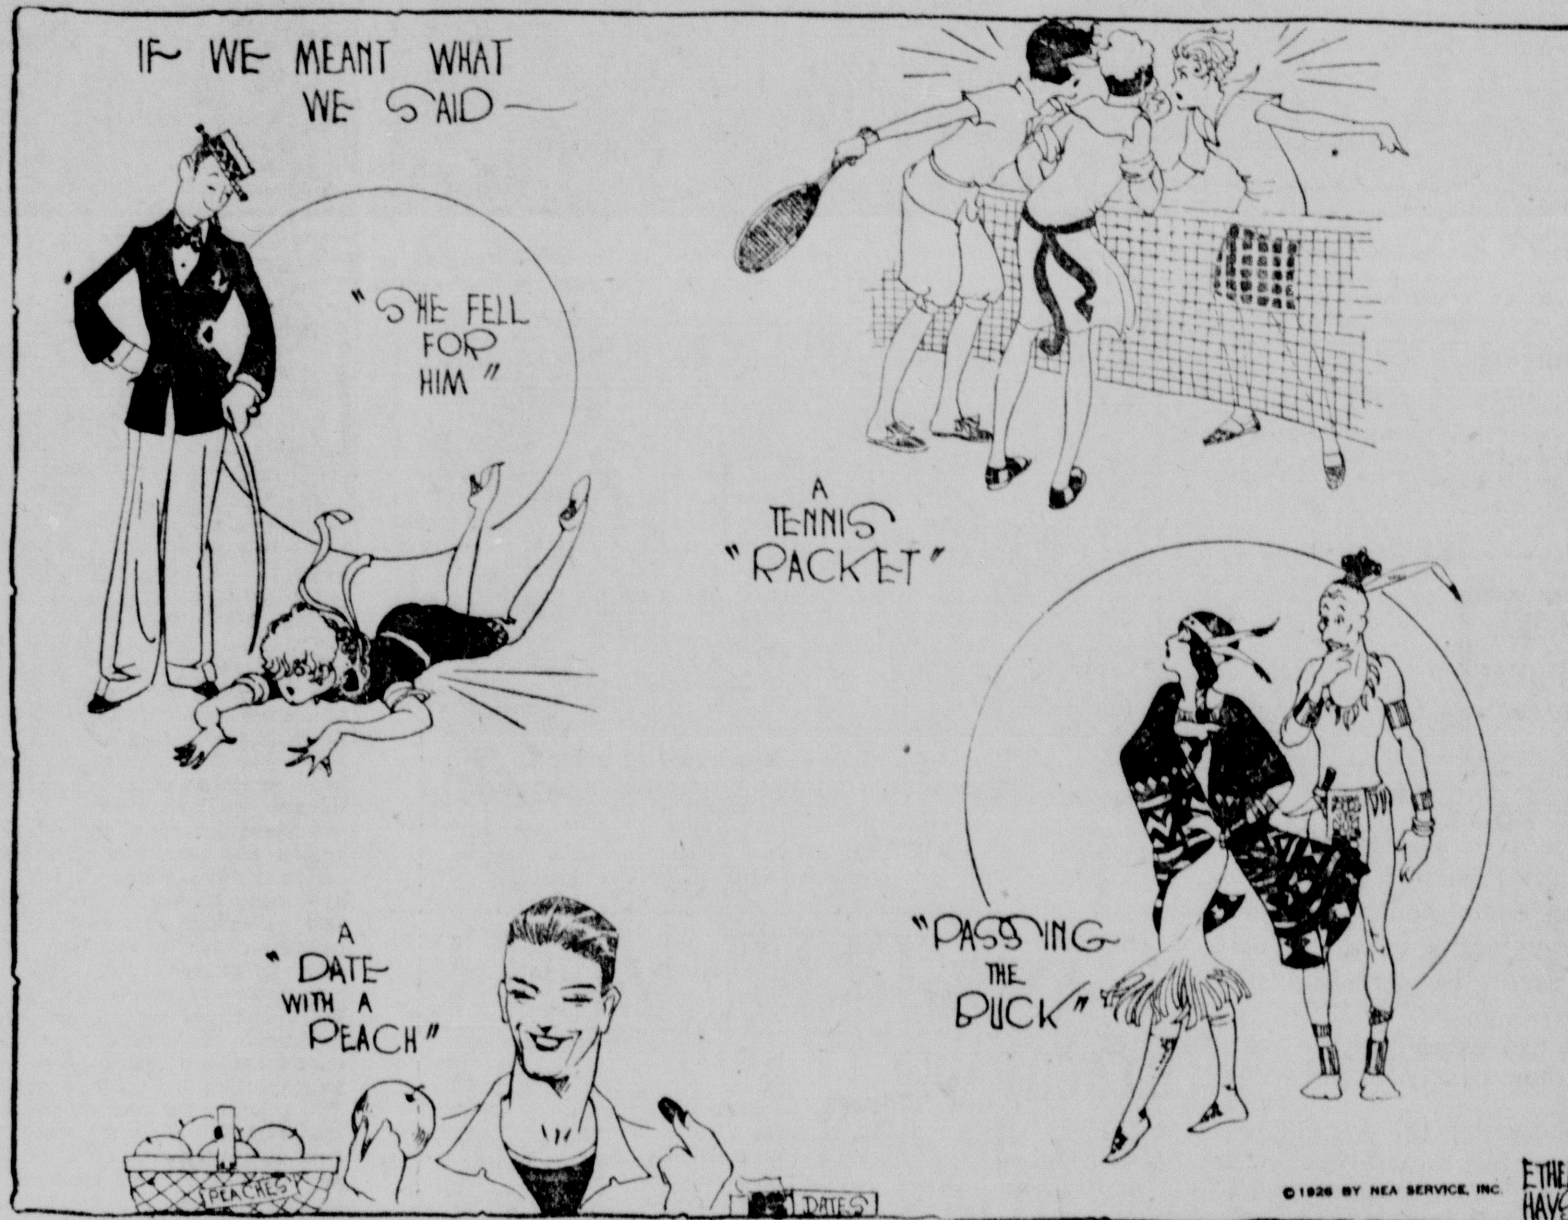

Friends and parents filed in with them. Each party had its own bench in that inner room and as one bench was emptied, a guard let another in.

We heard a widow of 41, a flower seller in the Grand Place below the dome where she now says her vows. It was hard to pick the roses and dahlias herself, she said.

He was a gardener next door. He sold his roses next her's in the market place.

Last Saturday it was that they

Delightful Party At Art Studio

Mr. and Mrs. L. H. Tibbitts last evening delightfully entertained a group of friends at bridge at the Dixon Art Studio. There were guests for three tables, and a happy evening at bridge was enjoyed.

And so they had—she didn't know. Maybe it was foolish. But it was so hard to keep the panicles transplanted.

The best wishes of the community go with the young couple as they are both well known and liked in this vicinity.

W. C. T. U. TO MEET TUESDAY AFTERNOON—

The W. C. T. U. will hold their regular monthly meeting on Tuesday afternoon, Sept. 14, at 2:30 in the Methodist church. Members are requested to notice the change of meeting day, the regular day being Friday, Sept. 17th, but the change is made because of plans being made for the county convention which is to be held in Dixon on the 21st of September.

The next W. C. T. U. meeting will be held Tuesday afternoon instead of Friday.

C. H. Hotchkiss, a former resident of this community, and father of Ira Hotchkiss and Mrs. Virgil Keith of this place, died at his home in Hennepin, Minnesota, Saturday morning from the result of a paralytic stroke which occurred the previous Thursday.

Mr. Hotchkiss was born near Polo and received his education in the rural school at Gap, Grove, in this county. Mr. Hotchkiss lived for many years in the vicinity of Franklin Grove and Ashton. The past eight years were spent in Minnesota. Mr.

Hotchkiss was united in marriage to Miss Ella Rucker in Minnesota about 37 years ago and to this union were born ten children, two of whom preceded the father in death. Those who survive are his widow and the following children: Mrs. Virgil Keith, and Ira Hotchkiss of this place; Charles Hotchkiss of Hennepin, Minn.; Lester Hotchkiss of Dixon; Alice, Angie, Ella and Mrs. Walter Sydow of Hennepin, Minn. Mr. Hotchkiss also survived by his aged mother, Mrs. Rachel Schick, who is ninety years of age, one brother Russell Hotchkiss and one sister, Mrs. Arlan Mason of Colorado Springs, Colo.

Funeral services were held Monday afternoon at 2:30 from the late home, with burial at Hennepin. He was a member of the Mystic Worker Lodge.

BRAVES THREATEN TO SPILL BEANS IN NATIONAL RACE

Prove Stumbling Block to Cardinals in Opening Game

BY THE ASSOCIATED PRESS

The ruthless Boston Braves who knocked the New York Giants out of the National League pennant in the closing stages of the 1925 baseball season, threaten to treat St. Louis likewise in the present scramble. The Cardinals lead today is but 2½ games with Cincinnati still second and Pittsburgh third, three points apart.

The Braves, languishing at the tail end of the circuit, were directly responsible yesterday for the Cardinals' half game loss to the Cincinnati Reds and the Pirates who spent the day in a futile effort to solve the second place problem. The Braves' home St. Louis lusterily 11-3 while Cincinnati and Pittsburgh won games from each other by the same score 4-2.

The threat the Braves offer to the three contenders can hardly be minimized as all three leaders must meet them shortly. The Cards have three more games with the Hub men, Cincinnati two and the Pirates three. In home games played against this trio this season, just half of the 24 battles have gone the Boston way.

Hard for Pirates.

It was the same Boston team that proved hardest for Pittsburgh to defeat last season, when the world champions were cruising pennantward.

The Hornsby clan, resuming work after a two day layoff, played rugged yesterday and Grover Cleveland Alexander, ace of the "round robin" series that brought St. Louis through to the top, was battered from the peak and with Reinhardt, yielded 16 hits. The veteran, Cardinal, shortstop, made three costly errors.

Red Lucas was supreme in the Reds victory over Pittsburgh allowing but four hits in the second game after Ruxley had dropped a tight pitching tussle with Ray Kremer in the first.

Philadelphia emulated Boston, rising to smite the Chicago Cubs, 8-4, and break Guy Bush's record of eight straight victories. The defeat pushed the Bruins three games below third place.

Heavy silence shrouded the leaders in the American League with St. Louis halting the six game winning streak of the Chicago White Sox 5-1 in the only game played.

The game went ten frames and McDermid, Chicago catcher, had his record of ten hits in ten consecutive times at bat broken when he was within one of tying the world record.

Investigate Poison

Death of Fast Horse

Chicago, Sept. 11.—(AP)—Officials of Lincoln Fields race track initiated an investigation today into the death of Captain Hal, leading four year old of the west, from a reported accidental feeding of poison yesterday in his stable at the suburban course.

Trainer Roscoe Goose said a trusted stable hand unintentionally fed the horse poison from a bottle instead of administering a dose of oil which Goose had intended to give the thoroughbred prior to his shipment to Kentucky.

Captain Hal was the fourth race horse to die from poison during the Chicago district's summer racing, poison doses having killed three others at the Aurora, Illinois track in June. Investigation there disclosed the poisoning as part of a gambling coup for which the principals were indicted.

The horse in his four years on the turf had won about \$70,000 in purses.

NEW CHAMPIONS AMONG HITTERS ARE ON THE WAY

Hornsby and Heilmann Not Leading Major Leagues Now

Chicago, Sept. 11.—(AP)—Two new major league batting champions are on the way, with prospect that the crowns will be knocked down for bids considerable below those of last year.

Detroit's best offer to retain the American League title which Harry Heilmann earned with .333 hitting is a .380 average while the National's best current bid for the honors won last year by Hornsby's .403 slugging is the .364 hitting of Hargrave, Reds' catcher.

Manush, who hit .303 for the Tigers last season, has forged to the top of the American regulars to join Fothergill in a race for the title which their team-mate's .363 average has slim chance of holding.

The Cincinnati backstop's present prominence is even more singular, for he wound up the 1925 pennant chase with an even .300 percentage, way down in the list. Engaged in a drive for the flag, the St. Louis manager has permitted his average to drop to .312, something new in Hornsby history.

Cuyler Best "Thief"

Hazen Cuyler's 29 stolen bases make him, by averages including Wednesday's games and released today, the leading contender for the majors title his teammate, Max Carey, brought to Pittsburgh in 1925 with a total of 46. The Pirate is, however, but a jump ahead of Johnny Mostil of Chicago, who has passed his 1925 record and leads in the American with 25, but one short of the 26 total which was the league's best last year.

Other new title holders, many of them entirely unexpected as contenders when the year opened, loom as the teams press toward the closing two weeks of the pennant chase. And George Burns of Cleveland has assured at least one new all-time record, by passing the previous high total of 59 doubles in any season.

Cincinnati has the three leading hitters in the National, with Hargrave, Bressler and Christensen bunched at the top. Pittsburgh is fighting for the pennant lead with two players among the leading ten, while the Cardinals have but one, in Lester Bell. The Reds also place Eddie Roush, who is hitting ten points below the .341 average that made him champion batter of the National in 1917.

Reds Lead in Hitting

The three clubs fighting for the lead have become similarly bunched in their slugging, with the Reds on top. Cincinnati leads with a team average of .292, the Pirates are hitting .287 and Cardinals are next with .284, an average shared by Chicago and Philadelphia, however.

Among the pitchers, Kremer of Pittsburgh had 17 victories and five defeats for Pittsburgh after Wednesday's games and his team-mate Meadows had an 18-7 slate. Rhem of St. Louis had his nineteenth victory and sixth losing start on record. Charley Root of Chicago rated strike out king, with 120 to his credit.

Outcome Afternoon's Play Has No Count Cup Stays Here

Philadelphia, Pa., Sept. 11.—(AP)—

The veteran stars who have clinched America's tennis supremacy for the seventh year in a row not only seem able to go on victoriously but this game seems to grow more effective with age.

Through the skill of "Big Bill" Tilden, "Little Bill" Johnson and "Dick" Williams, the United States has won another triumph over France in the 1926 challenge round for the Davis cup. To top off the decisive singles victories of Tilden and Johnston on the opening day over Borotra and La Coste, Williams, paired yesterday with the younger Vincent Richards, clinched the cup by winning the doubles from the French combination of Jacques Brugnon and Henri Cochet 6-4, 6-2.

The Americans were determined today to register another clean sweep by taking the final two single matches. In these Johnston was bracketed with Borotra and Tilden paired with La Coste afterward.

DEMPSEY—COMPARING 'EM—TUNNEY

	DEMPSEY	TUNNEY

Bouts engaged in . . .	77	60
Knockouts	47	30
Won	11	14
No - decisions	2	14
Draw	4	0
Lost	2	1
Knocked out	1	0
No contest	0	1
Exhibitions	10	0

Here is another comparison stunt on Jack and Gene—their pugilistic records.

It shows Dempsey started his pro career in 1915, or four years earlier than the challenger. It shows Dempsey has participated in 77 bouts against 60 for Tunney. It also shows Tunney has averaged about nine battles a year while Jack's been in but seven. (Before Dempsey went on his three year vacation he, too, had averaged about nine contests yearly, however.)

In the matter of knockouts, Dempsey leads with 47, against 30 for Gene. A good portion of Jack's came in the first round. The late Bill Brennan was the toughest fellow for Dempsey to put out. Brennan stayed 22 rounds. Tunney fought Georges Carpentier equally hard to bowl over, whipping the one-time idol of

France on a technical kayo in 15 sessions.

Dempsey has won 11 decisions to Tunney's 14. Jack has been in but two no-decision bouts to 14 for the challenger. Dempsey has taken part in four draws, Tunney none.

Twice Jack has lost the decision on points, once to Jack Downey and the other time to Willie Meehan. Both were four-round skirmishes. Gene has dropped but one decision, that to Harry Greb in 15 rounds in 1922. Incidentally, Greb is the only one to whip Tunney since Gene started his pro career.

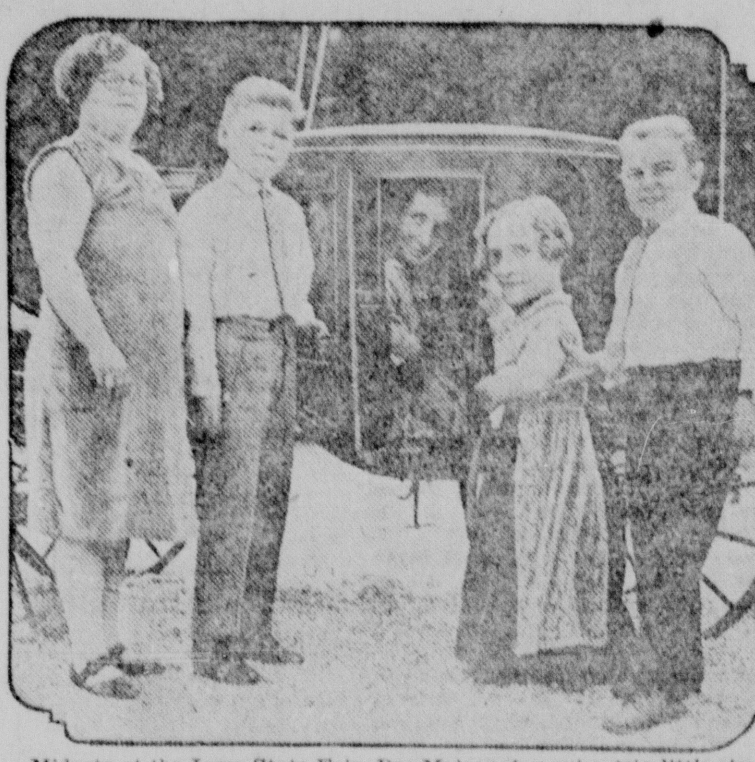

Dempsey is charged with one knockout defeat—Jim Flynn did it in 1917 in one round. Tunney has been in one "no contest" the Jack Renault clash in 1923 which was stopped in the fourth.

SHE'S LEARNING

Princess Maria De Bourbon, second cousin to the King of Spain, is visiting Mr. and Mrs. B. G. Dahlberg at their summer home near International Falls, Minn., and is rapidly learning how to enjoy life as a plebeian. She has not only taken up fishing, swimming and hiking—she learned how to shoot craps, and it cost her nine dollars.

TEAM MATES

NEA, Los Angeles Bureau For six months a baby seal has made his home on a whistling buoy at the entrance to San Diego (Calif.) harbor. And the gull that is perching on top makes a good team mate for it. The gull sings out when a ship approaches, and the seal swims over to meet it, knowing he'll get some fish thrown to him. He's a favorite with U. S. navy sailors.

EDUCATION WEEK BACKED BY MANY ORGANIZATIONS

Nov. 7 to 13 to be Observed Throughout the United States

Indianapolis, Ind. — The program for the sixth annual American Education Week, to be observed throughout the United States November 7 to 13, has been announced by Frank C. Ross, director of the National Americanism Commission of The American Legion. The week is being sponsored this year by the Legion, the National Education Association, the American Bar Association and the Daughters of the American Revolution. Nearly 150 other national organizations have given the movement their endorsement.

American Education Week was first observed in 1921 by presidential proclamation and has been conducted each year since with widening scope and growing importance. Mr. Ross explained. Its purpose is to awaken a wide-spread public interest in the problems of the schools and to promote education in citizenship. The observance of the week is carried out in the schools and churches and at meetings of commercial, social clubs and patriotic organizations.

Each a Special Day
In this year's program each day of the week has been set aside for special emphasis on one important educational idea. The first day, Sunday, November 7, will be "For God and Country Day." The program provides for the emphasizing of the idea that "laws without the support of individual morality are powerless." Ministers of all denominations are to be asked to deliver sermons bearing on educational problems.

Monday, November 8, will be "Constitutional Rights Day" with "Liberty is not the right of one, but of all" as its theme. The points emphasized in the program are that "every personal right implies a reciprocal obligation to respect the same right in others"; that "liberty which does not consider the public welfare is not liberty which is not prefaced by 'liberty'"; and that a demand not perched by a pledge of service to the cause of liberty is selfish and unreasonable.

"Patriotism Day" will be observed Tuesday, November 9. The program calls for the teaching of patriotism as "a fulfillment of individual obligations to the community, state and nation in peace or in war; a whole some respect for the symbols of the commonwealth, and a will to defend the principles of liberty, equality, justice and tolerance which actuated our fore-fathers to found it."

"Make democracy safe for the world through universal education," is the theme for "Equal Opportunities Day," Wednesday, November 10. The points brought out in the program for this day are that "the adequate education of youth is one of the few paramount duties of an enlightened government"; that "an illiterate adult is not only a disgrace to himself but to his educated fellow citizens"; and that "there is no Americanism in the true sense of the word, which does not educate the immigrant to meet the problems of everyday American life."

Big Armistice Day
Armistice Day, Thursday, November 11, is provided for in the program with emphasis on the desirability of "peace with honor and security."

Friday, November 12, will be "Show Your School Day." The purpose of the day will be to bring out the idea that "courses of study and methods of instruction are the business of teachers; but the ideals, aims and particularly the needs of education are the business of every citizen." Subjects mentioned in the program are "the school must be kept abreast of science and invention"; and "a little invested in education saves much expended on poverty, disease and crime."

The last day of the week, Saturday, November 13, will be "Community Day" with "Civic unity makes an efficient community" as its theme. The program calls for emphasis on "adequate parks and playgrounds for every community"; "increased availability of good books through public libraries"; "cultivation of common interests in sports, music, art and other wholesome fields for the improvement of civic unity"; and "every school house a community center."

Legion Commander Will Attend Springfield Meet
Indianapolis, Ind., Sept. 11—(AP)—John R. McQuigg, national commander of the American Legion, has accepted an invitation to be the guest of the Midday Luncheon Club of Springfield, Ill., at a luncheon there Sept. 14, it was announced at National Headquarters of the Legion today. Commander McQuigg will be in Springfield Sept. 14 to participate in the convention of the Illinois department of the Legion.

Commander McQuigg is scheduled to arrive in Springfield at 7:15 o'clock the morning of Sept. 14, coming from Elyria, Ohio, the meeting place of the Ohio department convention. He will address the Illinois convention during the luncheon. Immediately after the luncheon he will motor to Peoria, in time to catch the 3 p. m. train for Galesburg. From Galesburg he will go to Clinton, Iowa, to attend the Iowa department convention the following day.

PETROLEUM IN FISH
Philadelphia—According to Professor J. N. Macfarlane, of the University of Pennsylvania, the true source of the world's petroleum lies in the num- berless schools of fish that swim the ocean. The mosabunker, a small fish which exists in enormous schools, is one of the principal sources of supply he says.

London News of Week Seen by A. P. Writer

(The Associated Press.)

London.—When is a man grown up? Not until he is twenty-six, says the London general Omnibus Company, which employs several thousand drivers and conductors in covering the London area with its network of speedy bus services.

The company believes that youths normally develop their sense of responsibility to full pitch between the ages of 24 and 26 and it will not accept as drivers men who have not reached the latter age.

"We do not say anything against the young man," says one of the chiefs of the selection staff. "We choose men of that age to fill vacancies as conductors. But we will not take them as drivers until they are 26."

American negro melodies have been introduced into the musical program of the old Southwark Cathedral, just across the London bridge on the south side of the Thames. Six day recitals are given there for the benefit of the porters at the Hops market and other workers from nearby establishments.

The selections are from the "negro spirituals," or plantation hymns and are expected to prove a potent drawing card for luncheon hour audiences in this busy district.

George Leader, the 233 pound eating contest champion of Middlesbrough has declined an invitation to visit the United States and take part in a world's championship event. Pressure of business in this line at home is his reason he says.

"I have two matches on hand," he explained, "and I want to get those over before I consider any more."

Leader has won all thirteen matches in which he has been engaged in the last few years. He will be heavily handicapped in his next match by having to eat a pound of broiled ham and a dozen eggs before his opponent starts. Nevertheless, he is confident of winning.

In easily winning his last match, in which his opponent retired after three pounds of ham and forty eggs had been consumed, Leader gave an exhibition of what a really good eater can do. He dispatched the 19 eggs that were left and completed his feast with steak and kidney pudding and cream cakes.

Ladies in waiting to Queen Mary no longer shiver miserably while on duty at Balmoral Castle in Scotland as they did in the days of Queen Victoria. The castle has been modernized, and the minister in attendance to the king needs no longer to use his bed as a writing table and his chimney as a smoking room.

The task of bringing the castle into line with modern ideas of comfort and sanitation, started in the king Edward's reign, have just been completed. Though the interior furnishings are quite simple, the castle is homelike and this year for the first time is not the uncomfortable, draught-ridden home which Queen Victoria regarded with such affection. The king and queen who are spending several weeks at Balmoral, have known Balmoral from childhood, sporting facilities appealing strongly to the king. The queen, whose interest in sport is not great, enjoys the peace and quiet of the estate. She pays visits to personal friends nearby. The king goes grouse shooting daily and often sits before a log fire in the hunting huts swapping stories with his companions.

MELLON BUILT REPUTATION AS ART CONNOISSEUR

Also Showed French He is Somewhat Skilled as Financier

Paris—(AP)—When Andrew W. Mellon, secretary of the United States treasury, left Paris for England, it was with the reputation firmly established in official and near official circles of being an art connoisseur. He also gave those with whom he came into contact an opportunity to judge for themselves his skill as a financier.

Mr. Mellon's call at the Quai D'Orsay lasted exactly half an hour, nine minutes of which were given over to foreign minister Briand. The remaining 21 minutes were spent by the American secretary admiring the priceless gobelins in the foreign office.

Mr. Mellon stayed an hour in the ministry of finance. He chatted with Premier Poincaré for ten minutes and then, at his own request, followed by an usher, he visited the Louvre Museum in another wing of the ministry building and stood for many minutes before each of the famous paintings there.

"He is a real art expert," said the usher, when he became aware of the identity of the visitor. "I don't believe a man who takes such pleasure in admiring beautiful works of art can be a man to drive an impossible bargain on the French debt. He must have been mailigned."

The town of Menton is in throes of a bitter zoological and medical controversy. Dr. Serge Voronoff, of monkey gland fame, has asked the city fathers to give him permission to build a monkey house for 300 Simians inside the city limits. Listening to Dr. Voronoff, the officials saw visions of turning their quiet town into a famous center for medical research. But listening to the local representatives of the S. P. C. A., delegates from the churches and to groups of mothers who feared that 300 monkeys would be dangerous to the children they decided that permission would be held up pending further examination into the scheme.

Dr. Voronoff claims that the rivers is the only part of Europe where he can successfully raise monkeys. Already three other cities have refused him permission to establish his farm within their limits.

"The more sedate and refined my models are, the keener American buyers are to purchase them this year," says one of the leading dressmakers. "The day of eccentricities, better suited to the music hall stage, is over," he added.

There is a general agreement that the models being shown represent a high order of taste, as they are free from exaggeration of any kind.

America, deprived of the wines of France, is developing an appetite for French snails.

Small exports to the United States have increased amazingly in the last three years. In 1924 they reached the huge total of 1,000,000 pounds. Exporters say that tourists on automobile trips throughout the country have acquired the small habit of the small country inn. Nuts of dauphiny, the Dordogne and Anjou have also touched the American palate, and so great have been the recent exports that local prices have risen to a high level.

France's first "big time" woman journalist, Mme. Jeanne Dremontier, is dead. She leaves a record of achievement envied by many male star reporters.

Mme. Dremontier, more than 30 years ago, assisted in founding "La Fronde," the first daily newspaper devoted to women's affairs. Later she achieved fame as a reporter in the Dreyfus case when she discovered the hiding place of Major Esterhazy, who was accused jointly with Dreyfus and who took refuge in England. Her stories on the case attracted world wide attention.

French feminists give to Mme. Dremontier much credit for the amelioration of women's position in France during the last quarter century.

WHERE 27 MET DEATH IN WRECK OF LIMITED

Twenty-seven deaths and injury to 50 was the toll of this wreck of the Denver & Rio Grande Railway's "Scenic Limited" near Salida, Colo. The locomotive, a baggage car, two coaches and a pullman plunged from the rails to the bottom of the Royal Gorge as the engineer attempted to round a curve at 40 miles an hour. TUNES

Hal Cochran's DAILY POEM

Let's sing a song of highest praise for men who write our tunes these days. When orchestra or organ plays these tunes we get the hip hoorays.

They seem to fill our soul with pep and force us into proper step to walk away from fret and sigh and let our spirit sail on high.

When everything your tackle stumps you 'cause you've fallen in the dumps, what drives that feeling out of sight? A peppy tune! Yer dog-gone right.

GERMAN STUDENTS OBSERVE BIRTHDAY OF GERMAN AUTO

Drove Original Car to Home of Inventor After 40 Years

Berlin—(AP)—The fortieth anniversary of the invention of the German automobile, was fittingly celebrated by students of Hannover Tech. They hauled out the original machine from the school museum, filled the tank with gas and drove 270 miles from Hannover to the home of Dr. Karl Benz, the inventor, in Landen-burg. Dr. Benz is now 83 years old.

The trip was made without a single mishap. The car at times attained a speed of 21 miles an hour, with two passengers. Instead of the skeptical jeers which greeted Dr. Benz on his first ride in the same car, the student drivers received an ovation along the route. Tears were in the aged inventor's eyes and thousands of his townspeople cheered as the machine chugged up and stopped in front of his house.

Eleanor Paterson, young daughter of Joseph Medill Patterson, Chicago newspaper publisher, has been given the title of the "Millionaire Nun" in Germany.

Miss Patterson played the nun in "The Miracle" at the Salzburg festival plays. She arrived with two limousines, thirty four trunks, a retinue of servants and occupied a suite of eight rooms in a hotel. Lady Diana Manners played the Madonna in "The Miracle" at last year's festivals.

The Hofbrau House, which the Bavarian government recently established in Berlin to sell highpowered Bavarian beer to Berliners, has drawn unfavorable comment because of the size of its beer mugs. There are steins holding eight quarts. They are intended for family parties at which the stein is passed from one member to the other, children and adults alike, each taking a swallow to the health of the others. It is complained that visitors, especially Americans,

frequently insist upon testing their capacities by ordering an eight quart stein for themselves with the result that waiters have a hard time collecting the bills.

American travelers, unaccustomed to sleeping on feather beds with wedge shaped bolsters beneath their pillows, have described the first night in a German hotel as a struggle to escape suffocation. A Berlin hotel is now supplying guests with cards upon which are described half a dozen ways of making up a bed. If an

American wants to sleep in American style, he checks the proper diagram on the card and leaves it to the chambermaid to do the rest.

Dr. Otto Fischer, director of the State Art Gallery at Stuttgart, has been made honorary advisor of the Chinese Federal Museums and art galleries with headquarters at Peking. As such he has access to the costliest collection of Chinese art and antiquities in the world, an honor which it is claimed has not been achieved by another European or American. Dr. Fischer is on a year's study tour of China and Japan.

Baden-Baden is still the most popular German health resort for Americans. Eighty per cent of the guests at the two leading hotels in the Black Forest city this summer are Americans.

SEEKS ANCIENT TOMBS

Johannesburg—A search for the secret tomb of savage African chiefs is to be made shortly by Dr. C. M. Doke, of the university here. When the Doctor was a missionary in Northern Rhodesia, he learned of the secret graves, which no white man and only a few privileged natives have ever seen. Practically nothing is known of the Lamba tribe, and he hopes to record their speech, songs and folk lore.

SUN DIALS POPULAR

London—Sun dials are coming into vogue again. The romance of antiquity surrounds them, and they have lived over into this age because of their beauty and associations. In the old days every dial carried its message, such as "The longest day must end," "Make hay while the sun shines," "Be true as the dial to the sun," and "Improve each shining hour."
